QUALITY EXPERTS

Stand Out.

Set yourself apart from the competition by certifying to a quality standard.

As a diverse supplier, ISO 9001, TL 9000 and ISO 14001 certifications will be your competitive edge and will also help your organization reduce costs and increase productivity. Customers expect diverse suppliers to be competitive in price yes, but they also expect you to be a **quality organization**. Corporations must **reduce risk** and cost of poor quality in their supply chains.

For new suppliers, TL 9000 (the telecommunications quality standard) is now a requirement of many of the large services providers.

Don't get left behind.

"..Without these certifications, I can say we would not have met the qualifications for some major contracts we received in the past year.."
